# NGPI Beta Test Guide – Performance Dashboard / LMA Dashboard

**Go here:** https://stg-dashboard.geoplatform.gov/

Last Modified – 9/24/2018

## What is it?

A tool for Community Theme Leads and Dataset Managers to measure, monitor, and report on their National Geospatial Data Assets (NGDAs) and services.

## Features include:

- Filter by Survey, Theme, and Agency
- View multiple Theme & Agency selections
- Bar chart representation of each LMA stage and rollup scores
- Export as a PDF or CSV document
- View multiple survey results at once

**Instructions:**

1. *Find and try each of the above features.*
   a. *Usable? If not, why not?*
   b. *Intuitively obvious? If not, got a suggestion?*
   c. *Feelings? (Like/Dislike/Meh)*
2. *Spend quality time with it. Try the use-case scenario below then invent your own.*
3. *Find a bug? Please send any bugs, questions, comments, or recommendations to Lara Duffy at larad@imagemattersllc.com*
   a. *Include in subject line: "Performance Dashboard Beta Test"*
   b. *Don't hold back! Send us feedback as you go.*
   c. *Let us know soonest if you need help or have questions.*
4. *If you are having trouble logging in, you may be experiencing issues with Single Sign On (SSO) when switching between Beta and Production environments. Please clear your browser's cache and cookies, and then refresh the page (e.g <ctrl>-F5 and try again).*
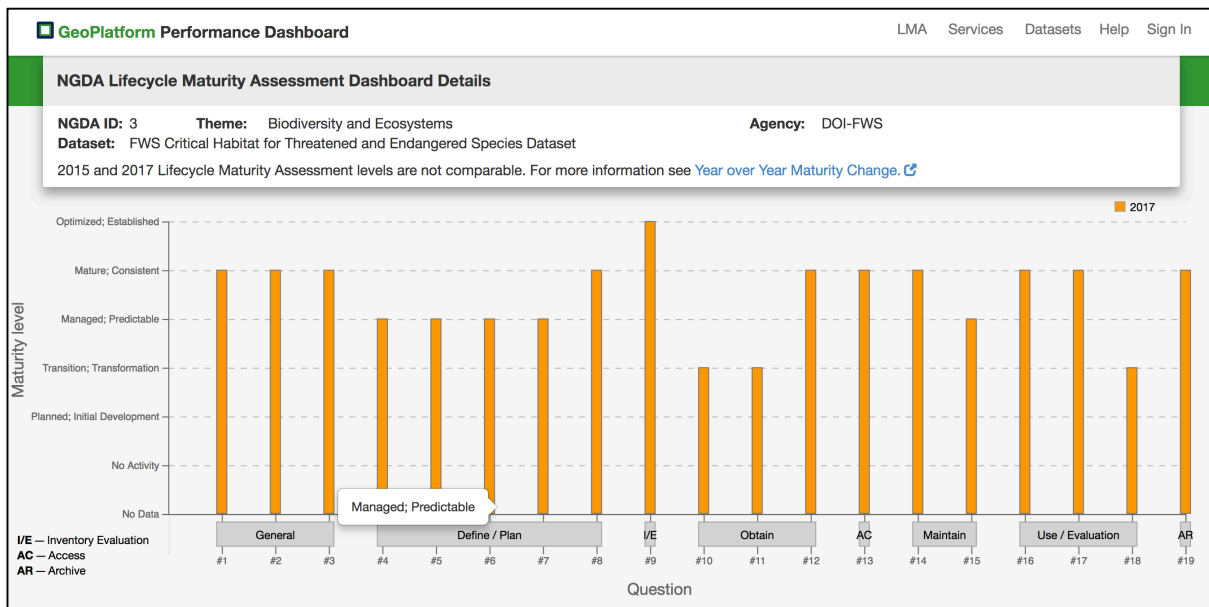

# UC-1: Use the Performance Dashboard to evaluate NGDA Lifecycle Maturity Level

**Precondition**:  User is logged into the GeoPlatform and navigates to the Performance Dashboard (URL specified above). The survey result for a NGDA Lifecycle Maturity Assessment are presented in the LMA Dashboard. By default, the LMA Dashboard shows all datasets for all themes and agencies for the default survey loaded to the LMA Dashboard.

**Steps**:

1) For the "**Assessment**" drop down, select "**2015**" (This is actual NGDA LMA data submitted by dataset managers).

   a. Note the table displays all NGDA datasets included in the assessment in NGDAID order.

2) Click the [Q Filter] button and select a theme

   a. Select any maturity box to see a bar chart for that dataset. For example:

   b. Hover the mouse over each bar to see what each specific question was and the score for that question.

   c. To exit the bar chart, click the browser 'back' button

3) Select an agency

| | General | Define/ Plan | Inventory Evaluate | Obtain | Access | Maintain | Use/ Evaluate | Archive | Overall | Theme | Agency |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | 4/5 | 4/5 | 5/5 | 5/5 | 5/5 | 4/5 | 4/5 | 4/5 | 4/5 | | |
| ...he United ...ands | 5/5 | 4/5 | 4/5 | 4/5 | 5/5 | 5/5 | 5/5 | 5/5 | 5/5 | Biodiversity and Ecosystems | USDA USFS |
| ...Viewer | 3/5 | 4/5 | 4/5 | 4/5 | 4/5 | 4/5 | 3/5 | 3/5 | 4/5 | Biodiversity and Ecosystems | DOC NOAA |
| | 4/5 | 3/5 | 5/5 | 3/5 | 4/5 | 4/5 | 3/5 | 4/5 | 3/5 | Biodiversity and Ecosystems | DOI FWS |
| ...us United | 3/5 | 2/5 | 4/5 | 5/5 | 5/5 | 3/5 | 3/5 | 5/5 | 3/5 | Biodiversity and Ecosystems | DOI USGS |
| ...ram | 3/5 | 3/5 | 4/5 | 4/5 | 3/5 | 2/5 | 4/5 | 3/5 | 3/5 | Biodiversity and Ecosystems | DOI USGS |

   a. Note the table now numerically displays datasets for just the selected themes and agencies
4) Select the download icons at the top to download a PDF or CSV of the items presented in the LMA Dashboard.

**Postcondition**: NGDA LMA results for selected datasets are presented, details about their maturity levels can be determined, and the dashboard information is exported as a PDF and CSV file.
